

AOC-3 Sample Locations

- Area of Concern 3 (AOC-3)
- Borehole Type**
- Grid Borehole (G)
- Judgemental Borehole (J)
- S=Soil Sample
- SD=Sediment Sample

Note: For boreholes J-47S through J-53S, soil sampling protocols will be followed unless the sampling location is inundated, in which case sediment sampling protocols will be initiated. For all other sampling locations standard sediment sampling protocols apply. If any sampling location is inundated, a surface water sample shall first be obtained before a soil/sediment sample is collected.
